PROJECTS :

DriverKick
- Deploy:**https://driverkick.herokuapp.com/**
- GitHub: **https://github.com/NinaRocket/DRIVERkick**
- As a vehicle owner, I want a multi-purpose vehicle maintenance tracker so that I can ensure I am up to date on my vehicle's upkeep.

Streaker
- Deploy:**https://streaker-app.herokuapp.com**
- GitHub: **https://github.com/scottsharris-az/Streaker**
- As a student, I want an app to store my goals, so that I can track my success streak.

Veg-In-Place Survival Kit
- Deploy: **https://dpayton92.github.io/Vegg_In_Place_Survival_Kit/**
- GitHub: **https://github.com/dpayton92/Vegg_In_Place_Survival_Kit**
- When I am bored at home, I want a quick way to find new media to relax with. So that when I input my preferences a random podcast, movie, game or joke will return each time.
